

**Internationally Educated Health Professionals in PEI: Why They Come, Why They Stay, and the Challenges They Face. – Godfrey Baldacchino and PEI – Association of Newcomers to Canada**

The purpose of this study is to better understand the concerns and challenges that internationally educated health professionals have about coming and staying on Prince Edward Island. In so doing, the province will have at its disposal relevant, specific and timely information about the movement of non-Canadian educated health professionals into this province. This data should, in turn, guide and strengthen the province's attempts and initiatives to attract suitable health professionals as settlers.
