

Onset Communication Inc - Job posting - July 13, 2021

Marketing research and communication internship

Onset Communication is an innovative technology company specializing in visual communication for the film and television industry. We build solutions to help make your day go smoother on set.

Join a driven team to make a difference in the exciting world of film and television productions. We are looking for a highly self motivated person to fill an internship, responsible for developing new online marketing processes, strategies and content which may include multimedia activities, conduct market analyses for our product to support business development related to science and technology activities and improve the customer experience on behalf of the organization.

Minimum requires are:

- Recent graduate post secondary education
- Excellent writing and communication skills
- Experience with social media platforms for research and marketing purposes
- Knowledge of film industry is preferred but not essential
- This is an entry level paid intern position with room to grow into a crucial position within the company.
- This position is funded via a government (Youth Employment Strategy) program and also requires the following conditions:
 - Must be 30 years of age or younger
 - Must have graduated from a post secondary program
 - Must be eligible to work in Canada

Other details:

- Location of the main office is in Charlottetown, PEI, Canada.
- Work from home hours can be arranged but in person meetings will be essential for the beginning of the contract.
- Salary range is \$28k-\$32k, depending on previous experience.
- Submit resume and cover letter to sales@onsetcommunication.com
- Our website: <https://onset.film/index.html>
- Closing date: July 30, 2021
