

Civil Engineering Student 2022

Company Overview

CBCL Limited is one of the largest employers of Consulting Engineers and Environmental Scientists in Atlantic Canada. Operating successfully in the region for over 60 years, we credit our success to the relationships we build with each and every member of our staff. With over 380 employees, CBCL Limited operates from its now thirteen Canadian offices located in Halifax (2) and Sydney, NS; St. John's, NL; Saint John (2), Fredericton (2) and Moncton, NB (2); Charlottetown, PE and Ottawa, ON.

We provide professional consulting services in a number of sectors, including Municipal Services, Water & Wastewater, Buildings, Industry & Manufacturing, Energy & Power, Oil & Gas, Marine, Transportation & Bridges, Environmental Science, Geotechnical and Materials Testing.

The placement will take place in Charlottetown, PE.

Job Description and Responsibilities

The student's tasks will consist of the following:

- Construction site Engineering Representative including field observations and measurements;
- Assisting engineers with design calculations and analysis;
- Completing material quantity takeoffs;
- Reviewing job specific shop drawings; and
- Assisting with various day to day office activities.

Work Term Outcomes

The student will have the opportunity to participate with an established team of professional engineers and technologists in developing innovative multidisciplinary design and construction solutions. Benefits include the opportunity to apply their technical knowledge in a practical and hands-on learning environment; exposure to the consulting environment from one of the leaders in the industry; experience in both office and field settings.
