

Salaried Job Opportunity

Date: August 15, 2022
Location: Charlottetown, Prince Edward Island, Canada
Position: Automation Systems Database Administrator

About Us

Amsted Canada Inc., is not only a leader in the manufacture of industrial components, we are a company where you are the driver of your own career. At Amsted, we know that our employees are at the heart of our world-class business, and we value you and want you to excel with us. We spend time understanding where you want your career to go and help you get there by offering the support and resources that will allow you to grow with us. At Amsted Canada Inc., we also encourage a spirit of Innovation by allowing time and space to experiment, to think differently and to challenge the status quo. If this is the type of environment where you believe you will thrive, we encourage you to join us.

Operating under the Amsted Industries umbrella since 1962, today we are meeting the growing needs of a global market with over 80 facilities across six continents. Amsted Canada Inc. has established a new business center in downtown Charlottetown, Prince Edward Island. We are elevating our global technology teams in several areas including but not limited to Engineering, Security, Development, Infrastructure, Emerging Technology, and SAP. These teams are instrumental in providing support to all Amsted Industries entities locations worldwide.

Position Details

In this position, the Automation Systems Database Administrator is responsible for managing the development and performance of SQL databases for Amsted Rail's many applications, businesses, and organizations. This role will be required to use their experience with data architecture and management to develop and scale SQL databases based on the organization's immediate and strategic needs.

What we offer you:

- **Autonomy** to help drive the development of our growing office on Prince Edward Island in a role that will impact our growth and how we work across all our functions at Amsted Canada Inc.
- Highly competitive **compensation and benefits package** that only begins with a strong base salary commensurate with skills and abilities, but includes annual incentive opportunities and a comprehensive benefits package
- Investment into your **personal and professional development** to ensure you remain at the top of your field and can reach your goals
- Being a **part of team** who cares about YOU – the *professional* and the *person*

Required Skills/Abilities:

- Install and maintain the performance of database servers
- Develop processes for optimizing database security
- Set and maintain database standards

- Manage database access
- Performance tuning of database systems
- Install, upgrade, and manage database applications
- Diagnose and troubleshoot database errors
- Recommend and implement emerging database technologies
- Create automation for repeating database tasks
- Be available for on-call support as needed

Compensation & Benefits:

- Excellent base salary and targeted annual bonus structure (*Entry Salary: \$55,000 plus bonus; Salary will be determined based on skills, ability, and qualifications*)
- Comprehensive employee benefits package including medical, dental, life and disability insurance, salary continuation, and a health spending account.
- Tuition reimbursement
- Fitness reimbursement credit

Education and Experience:

- Bachelor's degree in computer science or a related field
- One to three years of experience in database administration, information technology, database architecture, or a related field
- MCSE/MCSA certifications preferred
- Experience with Linux and Windows Server environments
- Extensive experience with database technologies (MySQL, MS SQL, PostgreSQL Oracle, MongoDB)
- Experience with cloud services (AWS, Microsoft Azure) a plus

This position is being filled in our Charlottetown office and **is not available for remote work** at this time.

Amsted Canada Inc. offers employees the stability of an established industry leader, along with the chance to learn, grow, advance, and make a difference. As a private company and 100% employee-owned, we are all stakeholders in this business and all have a common goal to make this company not only a profitable company, but also a place to grow our careers. We strive to be a place that people are attracted to, and we go steps beyond to make sure our employees are happy on the job – and away from it.
